Doe Myers	Karen Grove x	Joyce Massaro	Hy Murveit x
Virginia Chang Kiraly	Sue Sartor	Gary Dillabough	Jen Thelen
Bob Barrett x	Eric Hartwig	Ashley Eastman x	

1. Review Notes for April 13 , 2009 Meeting.
2. Update on Green Apple
3. Solar Feasibility.

Much has changed since we last looked into installing solar panels on campus buildings, and we expressed a desire to revisit the idea. Joyce has been approached by a vendor who wants to give a presentation to the GAC – The company is named Eshone. I'm pretty sure this is their website. The March 19th post is about the [Berkeley Schools' Solar project](#).

Gina Whitson @ Eshone Energy will be attending our GAC meeting today. They have a 20-minute presentation, that has time for questions. They also have a short video (Setup laptop).

She will address issues of economics and practicability and primarily educating us on the issues of solar, include web-based applications for bringing learning into a classroom.

4. Next Meeting: June 1, 2009
