

7TH GRADE MATHEMATICIANS (High & Regular)

I'm looking forward to having a wonderful time getting to know each of you as we experience the fascinating world of mathematics together.

Please bring the following things with you to ROOM #37 every day:

1. A 3-hole spiral notebook (at least 120 sheets) to use for class notes. A graph paper notebook is ideal but not required.
2. At least 3 sharp pencils with erasers.
3. 2 red ball point pens.
4. A scientific calculator with your name on it.

There are some good, reasonably priced (under \$15) models made by Sharp and Casio. They are usually available at office supply stores. There is no need to purchase a graphing calculator.

5. A centimeter ruler and a protractor with your name on them. (Spring Semester only)
6. "Optional"....Contribution of binder paper to classroom supply.
7. "Not Optional"...A positive attitude and A BIG SMILE!

See you soon,
Ms. Campbell
